

September 16, 2008

Mr. Jerry Turner, President  
Advanced Bio-Treatment  
213 Foothills Drive  
Murrayville, GA 30564

Dear Mr. Turner:

I want to express my sincere appreciation to you and Mr. Russell Sconyers, Chief Operations Officer for ABT. As you know, Snead State Community College served as an emergency evacuation shelter for nearly 300 Hurricane Gustav evacuees from the New Orleans, Louisiana area. We provided shelter in our gymnasium from September 1 through 5, 2008 on our campus in Boaz, Alabama.

It goes without saying that when one houses nearly 300 people together in one large room the clean up process is a significant one. As the president of Snead State, I was very eager to complete the process so that we could get our gymnasium back in service for our students as quickly as possible.

I was impressed with your quick response to our needs and your complete professionalism from start to finish. I can say with absolute certainty that our gym facilities are cleaner today than they have been in years. You brought your team on site as soon as we finalized the contract and then you performed above expectations when you delivered on what you promised.

Our student-athletes have been back in the gym since early last Saturday morning and on their behalf I want to again thank you for your quick and thorough response to our needs.

Please do not hesitate to use me as a reference should the need arise.

Sincerely,

A handwritten signature in black ink, appearing to read 'Robert J. Exley', with a long horizontal line extending to the right.

Robert J. Exley, Ph.D.  
President
